

4<sup>th</sup> International Symposium on

**E**nergy **C**hallenges & **M**echanics

- working on small scales

11-13 August 2015  
Aberdeen, Scotland, UK

### Invited Speaker of Session 10

### SUPERCAPACITORS

Dr. Daniel Guay holds a CRC Tier 1 in Energetic Nanomaterials at INRS-Énergie, Matériaux Télécommunications. Dr. Guay's research focuses on nanomaterials and electrocatalysis for fuel cells, electroreduction of CO<sub>2</sub> and microsupercapacitors. Dr. Guay has been exceptionally productive over his career. He has published 184 peer-reviewed papers in internationally leading scientific journals with high impact factors and holds 6 patents. Dr. Guay has been extremely successful in attracting external research funding and currently supports a multidisciplinary team of 14 researchers. He is collaborating with Mantra Energy, Armstrong Monitoring Corporation, Kingston Process Metallurgy and Air Liquide.

4th International Symposium on Energy Challenges and Mechanics

- working on small scales

11-13 August 2015, Aberdeen, Scotland, United Kingdom
