

4th International Symposium on

Energy **C**hallenges & **M**echanics

- working on small scales

11-13 August 2015
Aberdeen, Scotland, UK

Speaker of Session 08:

FUEL CELLS

Dr. Sang-Yul LEE is a Professor in the Department of Materials Engineering, Korea Aerospace University since 1993. He received B.S. in Metallurgical Engineering from Korea University (1981) and Ph.D. in 1988 from Illinois Institute of Technology. He is currently the Director of the Center for Surface Technology and Applications @ Korea Aerospace University. He was a visiting professor at the Harvard University and the Nagoya University. His research interests include nanoparticle synthesis and its energy conversion applications and thin film synthesis and applications in the field of automotive, cutting tools and dies.

4th International Symposium on Energy Challenges and Mechanics

- working on small scales

11-13 August 2015, Aberdeen, Scotland, United Kingdom
