

5th International Symposium on

Energy **C**hallenges & **M**echanics

- working on small scales

10-14 July 2016

Inverness, Scotland, UK

Speaker of Session 06

SUPERCAPACITORS

Michael Deschamps is a professor of Chemistry at the University of Orléans and is specialized in NMR spectroscopy. He works at the CNRS-CEMHTI laboratory (CEMHTI: Extreme Conditions and Materials: High Temperatures and Irradiation) where he is the head of the Materials and Energy section and of the NMR platform of the French network on Electrochemical Energy storage (RS2E). He is currently a Junior Member of the Institut Universitaire de France.

Prof. Deschamps received a B.S. and M.S. at the Ecole Normale Supérieure of Paris (1996–2000) and a PhD in 2001 with Prof. G. Bodenhausen. Between 2002 and 2005, he was a postdoctoral scientist and EMBO fellow at the University of Oxford (UK), working with Dr. J. Boyd and Prof. I.D. Campbell. In 2005, he was awarded a permanent position at the Faculty of Chemistry in Orléans and was promoted to Professor in 2013. He is a co-author of approximately 60 publications, and his current research interest is the characterization of materials by NMR.

5TH INTERNATIONAL SYMPOSIUM ON
ENERGY CHALLENGES AND MECHANICS

Working on Small Scales

July 10-14 2016 | Inverness, Scotland, UK
