

**Speaker of Session 7**

**NUCLEAR ENERGY**

Dr Mark S D Read is a Senior Lecturer at the University of Birmingham in the area of computational solid state materials chemistry whose research interests cover a range of subjects within contemporary materials chemistry modelling, with particular focus on the deployment and development of atomistic simulation methodologies to extend our understanding of the structure, stability and reactivity of solid state materials at the atomic level, particularly those with relevance to industrial and energy applications.

**6TH INTERNATIONAL SYMPOSIUM ON  
ENERGY CHALLENGES AND MECHANICS**

**Towards a Big Picture**

14-18 August 2016 | Inverness, Scotland, UK
