

1st International Symposium on
Energy **C**hallenges & **M**echanics

8-10 July 2014
Aberdeen, Scotland, UK

Speaker of Session 04

RESERVOIR SIMULATION

Dr. Alexandra Ivanova

Postdoctoral Researcher at the Helmholtz-Centre Potsdam
- GFZ German Research Centre for Geosciences, Potsdam,
Germany.

She graduated from M.V. Lomonosov Moscow State University, Moscow, Russia, in Geology/Geophysics and obtained her PhD in Geophysics at Uppsala University, Uppsala, Sweden, in 2013. The main research interest is on influence of fluids on seismic data: quantitative estimates of the amount of CO₂ in the sub-surface visible in seismic data, analysis on the effect of temperature and pressure on the volumetric estimates of injected CO₂, impact of petrophysical experiments on interpretation of time-lapse seismic data etc.
