

Speaker of Session 01

ENERGY EFFICIENCY

Mohammad earned his Bachelor of Science degree in Electrical Engineering and computer Science from Umm Al-Qura University in Saudi Arabia. He started his career as a project engineer in the Saudi Electricity Company. He worked on several electrical projects on different locations.

He obtained his Master of Science degree in Engineering Management from Brunel University London. His master thesis studied the appropriateness of applying Lean Philosophy on the Saudi Electricity market.

He started his PhD journey by studying the efficiency of fossil fuel power generation in the kingdom of Saudi Arabia.
